EDUCATION

- 2022 - present PhD Candidate in Supply Chain Management at **University of Houston C.T. Bauer College of Business**
- 2020 - 2022 Master of Business Administration at **Boston College** (GPA: 3.907 With Distinction: Top 10% of the Graduating Class)
- 2016 - 2019 Bachelor's Degree in Information Management and Technology at **Syracuse University** (GPA: 3.964 Summa Cum Laude)

RESEARCH INTERESTS

Supply chain transparency, sustainable supply chain management, and behavioral operations: specifically, how transparency and sustainability practices shape the behavior of consumers, decision-makers, and managers.

PUBLICATIONS & WORKING PAPERS

“Does Honesty Pay? Voluntary Self-Disclosure of Supplier Sustainability Deficits and Consumer Valuations of Products” Working Paper with Ravi Aron and Jinghui (Jove) Hou (Bauer College of Business, University of Houston) and Praveen Ashok Pathak (Warrington College of Business, University of Florida)

“Social vs. Environmental Priorities: Explaining Managerial Preferences in Supplier Sustainability Practice Implementation” Working Paper with Ravi Aron and Jinghui (Jove) Hou (Bauer College of Business, University of Houston) and Praveen Ashok Pathak (Warrington College of Business, University of Florida)

DISSERTATION

From Disclosure to Decision: Transparency and Sustainability Across Human and AI Actors in Supply Chains

Expected Defense: May 2027

Essay 1 examines the impact of disclosing supplier sustainability shortcomings on consumer outcomes.

Essay 2 examines the role of supply chain decision-makers in sustainability decision allocation.

Essay 3 (in development) examines human–AI collaboration in sustainability decision-making.

CONFERENCE PRESENTATIONS

POMS 36th Annual Conference

May 7–11, 2026, Reno, NV

Presenting: “Social vs. Environmental Priorities: Explaining Managerial Preferences in Supplier Sustainability Practice Implementation”

2025 INFORMS Annual Meeting

October 26–29, 2025, Atlanta, GA

Presenting: “Does Honesty Pay? Voluntary Self-Disclosure of Supplier Sustainability Deficits and Consumer Valuations of Products”

POMS 35th Annual Conference

May 8–12, 2025, Atlanta, GA

Presenting: “Does Honesty Pay? Voluntary Self-Disclosure of Supplier Sustainability Deficits and Consumer Valuations of Products”

College of Sustainable Operations Management Mini-Conference May 8, 2025, Atlanta, GA
Attendee

DSJ Mini-Conference February 10–11, 2023, Houston, TX
Attendee

RESEARCH EXPERIENCE

Graduate Research Assistant Jan 2023 - present
University of Houston C.T. Bauer College of Business Houston, TX

- **Social vs. Environmental Priorities: Explaining Managerial Preferences in Supplier Sustainability Practice Implementation**
 - Designed and developed a multi-phase experimental study examining sustainability prioritization in global apparel supply chains.
 - Created and validated survey instruments for measuring sustainability investment decisions, perceived insider-outsider identity, and perceived role instrumentality.
 - Applied advanced statistical methods (i.e. regression modeling) for hypothesis testing and behavioral analysis.
- **Does Honesty Pay? Voluntary Self-Disclosure of Supplier Sustainability Deficits and Consumer Valuations of Products**
 - Designed and implemented between-subjects and within-subjects experiments examining how apparel companies' transparency in sustainability communication influences consumer perceptions
 - Conducted statistical analyses using independent samples t-tests and paired samples t-tests to evaluate consumer behaviors based on different levels of transparency
 - Developed and tested theoretical models using PROCESS Macro (Hayes) for mediating analysis to test the underlying mechanisms of transparency on consumers' willingness to pay

Graduate Research Assistant May 2021 - May 2022
Boston College Carroll School of Management Chestnut Hill, MA

- Designed a sophisticated machine learning algorithm to look into what customers were talking about in Yelp restaurant review data
- Designed Qualtrics survey to collect human annotations to test against the machine learning algorithm

Undergraduate Research Assistant August - December 2019
The Center For Computational And Data Science Syracuse, NY

- Categorized over 200 political campaign messages per week from presidential candidates' tweets and Facebook posts into 4 main categories: persuasive, call to action, ceremonial, and campaign-relevant information resulting in adding to Political Campaign Social Media Codebook
- Partnered with professors, Ph.D. students, and content analysis team on how to qualify messages and resolve any conflicting opinions on the message types

TEACHING EXPERIENCE

Instructor — Supply Chain Management Fundamentals

Fall 2025, Spring 2026

University of Houston C.T. Bauer College of Business

Houston, TX

- Presented the foundational of Supply Chain Management covering the full Plan – Buy – Make – Deliver cycle to prepare students for advanced coursework and future careers in supply chain professional.
- Taught key concepts including Strategy Development, Forecasting, Sales & Operations Planning, Purchasing, Supplier Management, Project Management, and Logistics.
- Facilitated student engagement through interactive lessons and practical applications of process analysis, inventory control, and continuous improvement strategies.
- Achieved course evaluation scores above departmental and college averages across two semesters and formats (face-to-face, asynchronous online): 4.58/4.57 (Fall 2025/Spring 2026) vs. dept. 4.38/4.48 and college 4.50/4.52.

Instructional Assistant for Data Visualization

Fall 2022

University of Houston C.T. Bauer College of Business

Houston, TX

- Designed and created assignments for students to practice and apply tools in Tableau for analyzing and visualizing data
- Designed a quiz to evaluate students' performances based on class materials and class exercises
- Led the Data Visualization Team Exercise, which allows students to work in a group to create various visualizations to best represent data

Undergraduate Teaching Assistant / Computer Networking

Spring 2018

Syracuse University, School of Information Studies

Syracuse, NY

- Oversaw classes of up to 300 students in a computer laboratory for a total of 8 hours per week to maintain an atmosphere of academic learning and advancement; facilitated the development of technical skills
- Mentored students through office hours to support the learning from class materials and weekly lab practices

Undergraduate Teaching Assistant — Python

Fall 2017

Syracuse University, School of Information Studies

Syracuse, NY

- Assisted students with in-class labs and ensure they completed work within the class time
- Mentored students through office hours to support the learning from class materials and weekly lab practices

Teaching Philosophy: My teaching philosophy centers on cultivating curiosity and connecting with students to understand their individual goals. I strive to create a classroom where every voice counts and students learn not only from the instructor but from one another.

AWARDS & GRANTS

– 2025 3 Minutes Thesis (3MT) Competition Finalist

Selected as a finalist in a university-wide competition to present doctoral research in three minutes to a non-specialist audience, demonstrating exceptional research communication and presentation skills among graduate students across all disciplines.

- The recipient of the 2025 and 2026 Behavioral Research Assistance for Doctoral Students (BRADS) grant awarded by the C. T. Bauer College of Business, University of Houston — \$1,000/year to support behavioral research.
- The recipient of the 2024-2025 Cullen Fellowship Travel Grant- a competitive fellowship program established to support graduate student travel to meetings, conferences, performances, and exhibits to showcase their research and scholarly work.

PROFESSIONAL SERVICE

- Peer reviewer, International Conference on Information Systems (ICIS), 1 submission
- Peer reviewer, Information & Management, 1 submission

INDUSTRY EXPERIENCE

Strategic Planning Intern

June - August 2026

Talos

Houston, TX

- Built a cost of equity and WACC model for Talos using the Damodaran CAPM framework and bottom-up beta methodology
- Recommended KPI benchmarks for internal performance tracking against sector peers

Business Analyst Intern

June - July 2019

Aware Group

Chiang Mai, Thailand

- Consulted clients on business requirements for software development

SKILLS

- Critically assess and analyze empirical research
- Research methodologies: Regression, Matching, Panel Data, Difference-in-Differences, Instrumental Variables, Regression Discontinuity Designs, Regression Kink Designs
- Marketing models: Linear Regression, Poisson Regression, Probit/Logit Regressions, Choice Modeling, Survival Modeling and Time-to-Event Data, Shrinkage Estimation and Heterogeneity, Issues in Casual Inference (Ignorability and Imbalance, Endogeneity, Sample Selection)
- Machine Learning: Regression, Classification, Tree-based Methods, Model Assessment and Selection, Prediction Enhancement, System Modeling and Identification, and High-Dimensional Statistical Modeling
- Programming languages: R, Python, Stata
- Data visualization: Tableau
- Software: IBM SPSS, Microsoft Office, Qualtrics Survey

CERTIFICATIONS

- Social-Behavioral-Educational Researchers, CITI Program
- The Fundamentals of Digital Marketing: Google Digital Garage
